Dear Wayne Sorenson:

Thank you for your follow-up letter regarding seniors' driver medical exam fees.

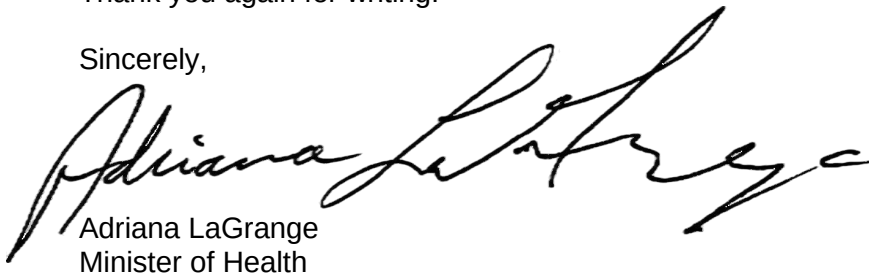

I want to assure you that Alberta's government recognizes the importance of supporting seniors who wish to continue driving. As you noted, we are exploring options to reduce the cost of seniors' driver medical exams. I am pleased to report that we have made progress on this initiative and are working to finalize the details of a discount program.

Regarding a no-cost option for the seniors' driver medical exam, it is important to note that the Alberta Health Care Insurance Plan is intended to pay for medically required services, which is why driver medical exams are not covered by the plan. This is consistent with other comparable provinces in Canada.

Recognizing the financial strain that some seniors experience, Alberta's government is pleased to provide a range of financial aid and health support programs for seniors, such as the [Alberta Seniors Benefit](#) program. This program helps low-income seniors with monthly living expenses. For more information about provincial supports for seniors, please visit Alberta's [seniors financial assistance programs](#) web page.

Thank you again for writing.

Sincerely,

Adriana LaGrange
Minister of Health

cc: Honourable Jason Nixon, Minister of Seniors, Community and Social Services
